

# Joseph Newman

I'm a full-stack developer with a background in UI/UX and graphic design. I focus on building responsive, user-friendly web apps with React on the front end and Node.js (express) or Java (Spring Boot) on the back end. I enjoy designing clean interfaces, writing maintainable code, and making sure everything works smoothly together. I care about both how things look and how they perform.

## PROJECTS

### Art Portfolio CMS react • node.js • firebase

View live website at [joseph-newman.com](https://joseph-newman.com)

Art Portfolio CMS is a custom built content management app I made with React and Firebase (Realtime Database & Storage). It allows artists to build and manage their own portfolio website without writing code. Users can log into a secure dashboard to update the site's name, hero image, about page, and create/edit art posts with images and descriptions.

### Techsavvy Business Website custom wordpress theme • PHP

View live website at [joseph-newman.com](https://joseph-newman.com)

I developed a custom WordPress theme for Techsavvy using HTML, CSS, Bootstrap, and PHP. I also created the company's branding and logo design. The theme was built from scratch to match the brand identity and included responsive layouts, editable content areas, and optimized performance across devices.

### Techsavvy Hub App react native • node.js • express.js

View live app at [joseph-newman.com](https://joseph-newman.com)

Designed and developed the Techsavvy Hub mobile app using React Native, Node.js, and Express.js, enabling clients to submit IT support tickets directly from iOS devices. Built a custom REST API to connect the app with our internal ticketing system, improving support efficiency.

## EXPERIENCE

### Techsavvy • IT Technician & Web Developer

October 2024 – Present

Diagnosed and resolved technical issues for schools and businesses at Techsavvy, I also led the development and deployment of the company's website and a customer-facing app for support ticket submissions.

### Idea Peddler • Multimedia Designer

January 2023 – October 2023

Multimedia Designer at Ideapeddler, a creative agency, crafting captivating digital experiences, collaborating with clients and teams.

### Monkee-Boy Web Design inc. • Brand / Web Designer

October 2020 – November 2022

UI/UX designer, working in along side engineers on web/mobile based applications. Providing wireframes and mockups for development and ensuring designs are AA compliant with accessibility standards.
